

UX-Process and UX-Analyze BETA Installation Instructions

The installation you will be accessing is a temporary Beta version that will not last past the next release of Oasis montaj. At that point these tools will be merged with the released version. This installation of Oasis montaj includes the latest versions of UX-Process and UX-Analyze. It installs in a parallel directory named "Oasis montaj - T1" and as such it will not overwrite your existing released version of Oasis montaj. The core version of this installation is Oasis montaj 7.2.

To proceed with this installation you need to have Windows XP Sp3 or newer.

Installation instructions:

1. Park your license
2. Check to see if you have a previously installed "T1" version of the software, by looking for a folder named *c:\Program Files\Geosoft\Oasis montaj-T1*. If so follow steps a & b, otherwise skip to step 2,
 - a. Uninstall *Oasis montaj-T1* using the Windows "Add or Remove Programs" utility.
 - b. Delete the entire folder *c:\Program Files\Geosoft\Oasis montaj-T1*
3. Click on the "↓ Download UX-Process" link on the [UX-Process](#) web page
4. Save the ZIP file to your desktop or elsewhere. It is named "Geosoft UX-Process and UX-Analyze 7.2.0 5W setup 2010.03.16.zip" by default.
5. Open the ZIP file and double click on the EXE file to run it.
6. Follow installation instructions.
7. Enter your license key when prompted.
8. Click on the "↓ Download UX-Analyze Patch" link on the on the [UX-Process](#) web page and save the zip file
9. Install the patch by double clicking on it

Once the next release is available you should uninstall the "Oasis montaj-T1"
